AARAV JIT

ENTRY-LEVEL IT SUPPORT | CYBERSECURITY & NETWORKING STUDENT

Sacramento, CA | aaravjit.github.io | linkedin.com/in/aarav-jit-499a93293

PROFESSIONAL SUMMARY

Entry-level IT support candidate and incoming Cybersecurity and Information Assurance student with hands-on experience configuring Arch Linux, troubleshooting Windows and Linux systems, building PCs, and writing Bash-based installation workflows. Brings two years of high-volume customer service experience, clear communication, disciplined escalation, and a proven ability to learn unfamiliar systems quickly.

TECHNICAL SKILLS

Operating Systems: Windows 10/11, Arch Linux, Linux command line, desktop environments, PowerShell fundamentals
Troubleshooting: Software installation, PC hardware, storage and memory diagnostics, user accounts and permissions, processes, services, logs, network connectivity
Networking Fundamentals: TCP/IP, IPv4 addressing, DNS, DHCP, ICMP, Ethernet, Wi-Fi, common ports and protocols
Tools & Technologies: Bash, Git, GitHub, systemd, journalctl, NetworkManager, Event Viewer, Device Manager, Task Manager, Python, Next.js

PROJECTS

Aarav Hyprland - Portable Arch Linux & Hyprland Environment *2026*

- Developed a reusable Bash-based installation workflow and GitHub repository for deploying a personalized Hyprland environment on Arch Linux.
- Created configuration paths for Intel, AMD, and NVIDIA graphics and successfully deployed the environment on desktop and HP OmniBook laptop hardware.
- Documented setup and troubleshooting while using Git, package management, systemd, journalctl, and hardware-specific configuration.

WrenchAI - Aviation Maintenance Study Platform | wrenchai.app *2025-2026*

- Built and deployed an account-based study platform featuring practice questions, mock exams, flashcards, progress tracking, and structured aviation-maintenance learning workflows.

Portfolio Website - aaravjit.github.io *2026*

- Developed and deployed a responsive Next.js portfolio through GitHub Pages to present technical projects, skills, work experience, and contact information.

EXPERIENCE

Walmart - Online Grocery Pickup Associate | Citrus Heights, CA *Jun 2024-Present*

- Communicate directly with customers to resolve order issues, explain substitutions, and coordinate accurate, timely handoffs in a high-volume environment.
- Use internal inventory and order-management systems, follow documented procedures, and maintain accuracy while priorities change rapidly.
- Identify routine operational problems, coordinate across teams, and escalate issues requiring management support.

Target - Seasonal Fulfillment Expert | Sacramento, CA *Nov 2023-Jan 2024*

- Used handheld fulfillment and inventory systems to locate, verify, stage, and prepare orders under tight seasonal deadlines.
- Maintained order accuracy and supported team workflow during peak demand.

EDUCATION

American River College | Sacramento, CA *Beginning Fall 2026*

Cybersecurity and Information Assurance, Associate Degree Program

Upcoming coursework: Introduction to Networks; Switching, Routing, and Wireless Essentials; Network Systems Administration; Network Security Fundamentals

California State University, Sacramento *Prior Coursework*

Computer Science coursework in programming fundamentals and data structures; no degree claimed.
